

## 3G Video SERVICES AT YOUR FINGER TIPS

BSNL Launches 3G additional Video Services on Ericsson's state of art Video Gateway Platform covering East Part of India. BSNL is the first operator in India to launch 3G Video Telephony Services. It provides a high speed internet services through its 3G BSNL enables seamless availability of 3G service on User Friendly 3G Mobile network and packet network with services like latest Video On Demand, Mobile TV, Mobile to PC Calling and Video Conference at the figure tips of its customer, at anytime and anywhere basis. These Services are available to its subscribers at cost effective and affordable rates.

### BSNL 3G VIDEO SERVICES

- DIAL A TV
- VIDEO ON DEMAND
- VIDEO CONFERENCING

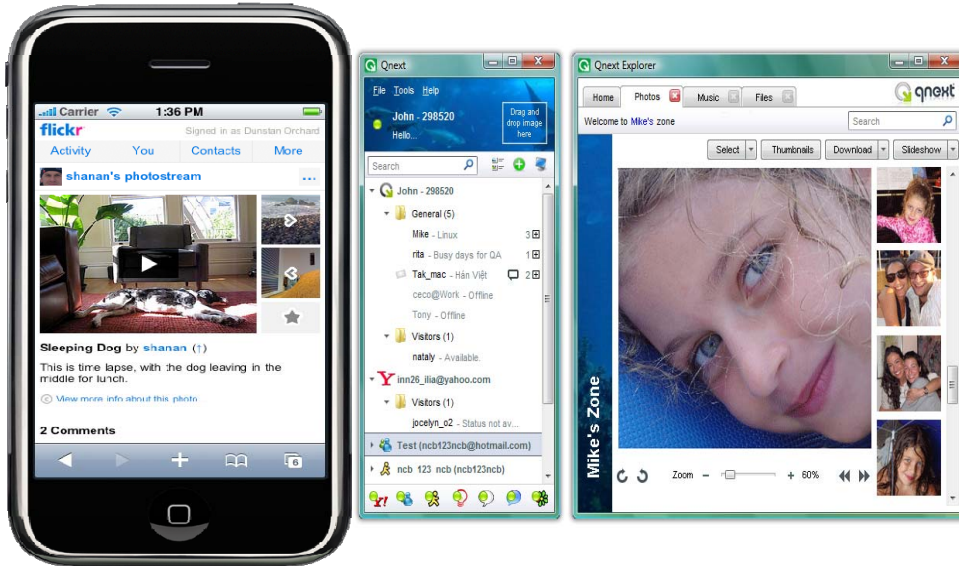

#### Dial A TV

Dial a TV service allows user to watch live Television channel by dialing the short code from the mobile for that channel. This makes easier for customer to access mobile TV because he doesn't need to do GPRS configuration in his handset.

## Enriched Experience for Downloads and Browsing

### VIDEO ON DEMAND

Many a times a device does not have enough memory to download video content. To overcome this challenge BSNL presents a solution that enables its users to view various movies or video clips without downloading. Streaming video content is sent over the Internet and displayed by the viewer in real time. The Video content is sent in a continuous stream of data and is played as it arrives. End Use needs to dial just short code or access through BSNL Live.

## VIDEO CONFERENCING

Video Conferencing service where user from different access like Mobile, PC can be part of same conference is possible through Video Gateway. This platform will make life easier for enterprise and residential consumer.

## SIMPLE STEP TO ACCESS 3G VIDEO SERVICES

- DIAL 222XXX FOR TV CHANNELS
- DIAL 223 FOR VIDEO CONFERENCE

## Dial A TV

## BSNL LIVE

'BSNL Live' is a WAP Portal for On Demand Video/ Movies/ Full Track Music/ Gaming

Services and provides Enriched Experience for Downloads and Browsing. The service is available to all

GSM (2.5 G & 3G) subscribers of BSNL whether Postpaid or prepaid.

## VIDEO ON DEMAND

Many a times a device does not have enough memory to download video content. To overcome this challenge BSNL presents a solution that enables its users to view various movies or video clips without downloading. Streaming video content is sent over the Internet and displayed by the viewer in real time. The Video content is sent in a continuous stream of data and is played as it arrives. End User needs to have the GPRS facility and has to dial just short code or access through BSNL Live.

## Procedure for getting GPRS/3G settings

- Customers can get the GPRS / 3G settings in the following 4 modes:

Customers may send SMS to 58355 in the format *Manufacturer <space> Model Number e.g., Nokia <Space>*

*N70* to get the GPRS/3G settings. All the 7 settings corresponding to the handset will be pushed to the handset.

Customer is to save the settings in his handset.

- The settings are also available at [www.cellone.in](http://www.cellone.in) for downloading to the handsets by the customers. Customer can go to that internet website from the computer and give the mobile number and select the handset. The selected settings will be sent to the handset. These are to be saved.
- The settings corresponding to the handset may be manually set in the handset as per the given details.
- All the settings are also pushed to the customer handset when the SIM or handset is changed.

In case of difficulties, customers may also contact Call centre at 1503 to get the settings.

## How to watch into Hello TV

There are 32 live TV channels available in the BSNL Live under the name **Hello TV**. The following steps are to be done to watch Hello TV.

Go to the Web from the handset.

1. Make bookmark :

- Name : **BSNL Live**
- Address : <http://bsnllive.net>
- Access point : bsnllive
- User name :
- Password :

2. Select BSNL TV bookmark to go the Website

3. Select Hello TV in the BSNL Live Site

4. The following 5 Channel Categories are available:

- News
- Entertainment
- Music
- Sports
- Devotional

5. Go to the category of your choice

6. Select the Channel

7. Price will be displayed for selection of

- Daily Package
- Weekly Package
- Monthly Package

8. It will give you options to view channel over 3G or 2G bearer. Select the option as per your subscription.
9. It will use the bsnlstream setting to stream the channel and TV will be displayed on the handset.

### **HOW TO DOWNLOAD BSNL LIVE**

1. Go to the Web in the handset.
2. Use the bookmark **BSNL Live** created in point no. 2 above
3. BSNL Live is rich in content. There are 6 categories available having various kind of contents
  - Movies
  - Music
  - Videos
  - Games
  - Wallpapers
  - Ringtones
4. Select the category and go to the sub category
5. Select the particular content
6. The price will be displayed.
7. Select buy/download to stream the content or download it.

### **VIDEO CALL**

#### **Procedure for Making Video Call**

1. Handsets should be 3G enabled
2. Subscriber should have 3G subscription
3. Procedure for getting 3G subscription: Apply for a new 3G SIM card or keep the same 2G SIM card with 3G subscription.
4. Application should be submitted at nearby BSNL Customer Care or Retailer
5. Both Calling number and Called number should be in 3G Area.
6. Press the Called number
7. Go to Option and press 'MAKE VIDEO CALL'
8. Press 'SELECT'

9. Video Call is through. The live image of corresponding user will be displayed in the screen.

### **How to start the Live TV from a 3G Mobile Handset**

The WCDMA Mobile subscriber has to dial 222XXX short code from the handset and press enter. There are short codes defined for each Live TV channel for eg: DD National – 222001, AKASH BANGLA – 222700..etc. (These short codes are likely to change soon) After dialing the short code the request comes to VIG and VIG will convert it as a RTSP request and forward it to the ECDS server. The ECDS will respond back with content from the RTP protocol and the buffering will starts and then Live TV will start displaying in the handset.

### **How to start the Video Conference from a 3G Mobile Handset**

The corporate customers will book the video conference by calling BSNL call Centre, The BSNL Executive will create the conference in the Polycomm MCU. The conference schedule details like Chair person name, total number of participants with this MSISDN, Conference id, Chair person Pin code, time of the conference call are sent via e-mail to convener. The participants will dial the short code 223 from 3G Handset to enter into the conference room. To join into the conference Room all participants including chair person has to enter their respective conference id provided to them. The users will be guided by the IVRS.

### **HIGH SPEED MOBILE INTERNET**

Through 3G service , customer can avail high speed mobile internet from his 3G mobile handset. The tariff for the data plans are very attractive ( as below). The customer can also use 3G data card to get internet at broadband speed. BSNL is expected to provide 3G data cards for its 3G customers shortly on outright purchase basis.

### **Tariff for 3G mobile service**
